

Recommended Configuration

| Recommended Configuration | Windows | Mac |
|---------------------------|---|---|
| Operating System | Windows 10 (64-bit) | OS X Sierra (10.12) |
| CPU | 2GHz (dual-core) | 2GHz (dual-core) |
| RAM | 4GB | 4GB |
| Wired Adapter | Gigabit Ethernet (1Gbps) for FIBERLINK NET 1000, 500, 300 (with CAT5e/CAT6 cable) FastEthernet (100Mbps) for all other packages (with CAT5e cable) | Gigabit Ethernet (1Gbps) for FIBERLINK NET 1000, 500, 300 (with CAT5e/CAT6 cable) FastEthernet (100Mbps) for all other packages (with CAT5e cable) |
| Wireless Adapter | 802.11ac for FIBERLINK NET 1000, 500, 300 Internet; 802.11n for all other packages | 802.11ac for FIBERLINK NET 1000, 500, 300 Internet; 802.11n for all other packages |
| Web Browser | Up to date versions of Internet Explorer, Chrome or Firefox | Up to date versions of Safari, Chrome or Firefox |

A computer or device with the above configuration and a direct wired connection to your modem will best allow you to enjoy the speeds delivered by your Jordan European Internet package.

An Ethernet/wired connection and at least one wireless connection are required to reach maximum download speeds of up to 1Gbps for FIBERLINK NET 1000.

Actual speeds experienced vary with Internet traffic, server gateway/router, equipment, home wiring, home network or other factors.
